REASON FOR FORMALITIES.

Asked about the nature of these formalities, Bunau-Varilla said;
"These formalities arise from the special situation of the canal property,

which is now in the hands of a receiver and can not be transmitted without au-

thorization of the courts. The absurd

theory of Colombia that certain parts of the contract between Colombia and

Panama are still binding, while others are not, can cause only amusement even to the simple. Colombia has lost her

sovereignty over the Panama canal, and therefore is unable to fulfill her obliga-tions to the Panama Canal company,

although Colombia seems desirous that the Panama Canal company shall ful-fill its obligations to the Bogota Gov-

ernment and decline to sell the canal without the consent of Colombia. "I should may that probably not more

than a month will clapse before Panama will be ready to accept this \$10,000,000." The Minister today received formal notification from the Korean Govern-ment that Korea has recognized the in-dependence of Panama.

WASHINGTON, Feb. 26.-President | today, in accordance with the terms of the treaty, the \$10,000,000 which this Roosevelt today signed the proclamation putting into effect the treaty with Panama regarding the Isthmian canal.

soon as the proclamation was signed it was returned to the State department, where the exchange of ratification had taken place between Secretary of State Hay and Minister Bunau-Varilla of Panama.

The Cabinet was in sersion when the proclamation reached the White House from the State department. Secretary Loeb took the document to the President and he signed it immediately.

The President may not send to the Senate his appointments on the Isthmian Canal commission before the first of next week. He has been informed by telegraph that Benjamin M. Harrod of New Orleans has mailed to him a statement regarding the charges

preferred against Mr. Marrod. Until he has received this statement and given it consideration, the proba-bility is that the official announcement personnel of the commission will be withheld.

The exchange marks the close The exchange marks the close of diplomatic negotiations looking to the acquirement of canal rights on the isthmus, running back to the first quarter of the last century. What remains to be done now is nothing more than the adjustment of certain legal questions by the law officers of this Government. The State department has filled its functions. filled its functions.

The legal questions remaining to be settled is the pending litigation in France concerning the canal, and the question whether under the terms of the Spooner act the \$10,000,000 which was to be paid to Colombia can now be paid to

It will be some time before these questions can be settled, and meanwhile no money is likely to pass.

THE PROCLAMATION.

THE PROCLAMATION.

By the President of the United States of America—A Proclamation.

Whereas, A convention between the United States of America and the Republic of Panama to Insure the construction of a ship canal across the Isthmus of Panama to connect the Atlantic and Pacific occans was concluded and signed by their respective plenipotentiaries at Washington on the 18th day of November, 1993, the original of which convention being in the English language.

The text of the treaty then follows and the proclamation continues.

And, whereas, The said convention has been duly ratified on both parts and the ratifications of the two Governments were exchanged in the city of Washington on the 3th day of February, 1994.

Now, therefore, be it known that I. Theodore Roosevelt, President of the United States of America, have caused the said convention to be made public to the end that the same and every article and clause thereof may be observed and fulfilled with good faith by the United States and the citizens thereof.

In testimony whereof I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done at the city of Washington this 3th day of February, in the year of our Lord 1994, and of the independence of the United States the 12th.

BUNAU-VARILLA RESIGNS.

From the State department Minister Bunau-Varilla, with the exchange copy of the treaty, drove to the cable office and tendered his resignation as Minister from Panama to the President of the republic in the following dispatch:

The exchange of ratifications of treaty has taken place today at 10.45, thus finishing the accomplishment of my duty to the Kepublic of Panama. I request your Excellency, in conformity with what I have expressed in my letter of November 24th to the Department of Foreign Affairs, to accept my resignation from today and to send me by next mail my letters of re-

The calendar of general business then was taken up. Several bills were passed, among them that providing for the con-firmation of entries under the hometead law when made out in the land district in which the land is situated. A bill authorizing the holding of United States courts at Great Fails,

Mont., was also passed.

There was considerable discussion of the bill requiring the employment of American vessels in the shipment of Government stores.

Mr. Hill defended the measure against the charge that in effect it is a subsidy, and said every effort should be made to protect our dwindling commerce on the sea. He contended that the bill only puts in practice the system of other countries

Mr. Hale said incidentally that for this session at least the issue of general ship subsidy was dead.

Other Senators participating in the discussion were Messra Daniel, Patterson, Lodge, Bacon, Perkins, Teller, Hoar, Hopkins and Carmack. The bill was amended at the instance of Mr. McCumber, so as to provide that car-riers under this bill should not make greater charges against the United States than against other customers; then, at the suggestion of Mr. Allison, so as not to prohibit the use of ships owned by the Government. Mr. Daniel suggested a provision to the effect that charges by American vessels should not exceed by more than 10 per cent the minimum bids of foreign vessels for carrying the same freight, but before a vote could be secured on the amend-ment, Mr. Carmack moved to recommit the bill to the Committee on Commerce The vote resulted 12 to 30-no quorum.

In the House.

WASHINGTON, Feb. 26.-The House passed the naval appropriation bill today after having had it under consideration for a week. There was a party contest on a number of proposals during the day, and especially on an effort of different minority members to secure an amendment to fix the price of armor plate at the figure bid by the Midvale Steel company. Several amendments were ruled out on points of order, and the Republican leaders by parliamen-tary tactics left the question of armor plate in the discretion of the Secretary

of the Navy. An ineffectual attempt was made to have the eight-hour law applied to all ship construction. The contest over submarine boats was exciting, and an amendment finally was adopted which leaves the question of the type of boat open, but increases the amount of the appropriation for such boats. The minority failed to secure a record vote on the proposal to recommit, with instruc-tions, the proposed instructions being declared out of order.

Here is fresh proof of their concentrated virtues: Mrs. Margaret Gantz. of No. 1527 Bodeman street, Burlington, Iowa, is an industrious German woman, who about two and a half years ago found herself in danger of losing her power to work altogether. She says: "I got rheumatism which made my knees and elbows very stiff and pain-ful. I had difficulty in raising my arms and I could hardly lift my feet over my doorstep. I ought to have gone to bed, but I couldn't afford to do that, so I forced myself to work in spite of the pain and stiffness. After suffering for about eight months, I was told about Dr. Williams' Pink Pills for Pale People by a friend, who said she had been cured by them. On her advice I bought one box and in two weeks after I began to use them I was well, and I have had no need to use them now for nearly two years. Dr. Williams' Pink Pills are a good medicine, and if I ever have rheumatism again I will get a box right away. I have told many friends what they did for me, and I am glad every-body should know." This is valuable news to all who suf-
